

Tobias Friemelt

During his studies in Economical Engineering and later Business Management, Tobias came initially in contact with the stock market, later heading the local student stock exchange club and working at a local software company focusing on debt, derivatives and securities management for the federal states (i.e. bonds > EUR 2bn). After completing his studies, he moved to Frankfurt to support the strategic and technological transformation of financial institutions. Working closely with the executives, his focus is on the strategic implementation of governance in the financial sector. Currently he is pursuing the Level I CFA designation.
