

THETA-DIGITAL FUND LUXEMBOURG

January 2021

FOR ACCREDITED INVESTORS ONLY
INFO@THETA.DIGITAL

Investment Objective

The investment objective is to grow the number of BTCs while achieving a risk/return profile superior to a passive buy-and-hold strategy.

Description

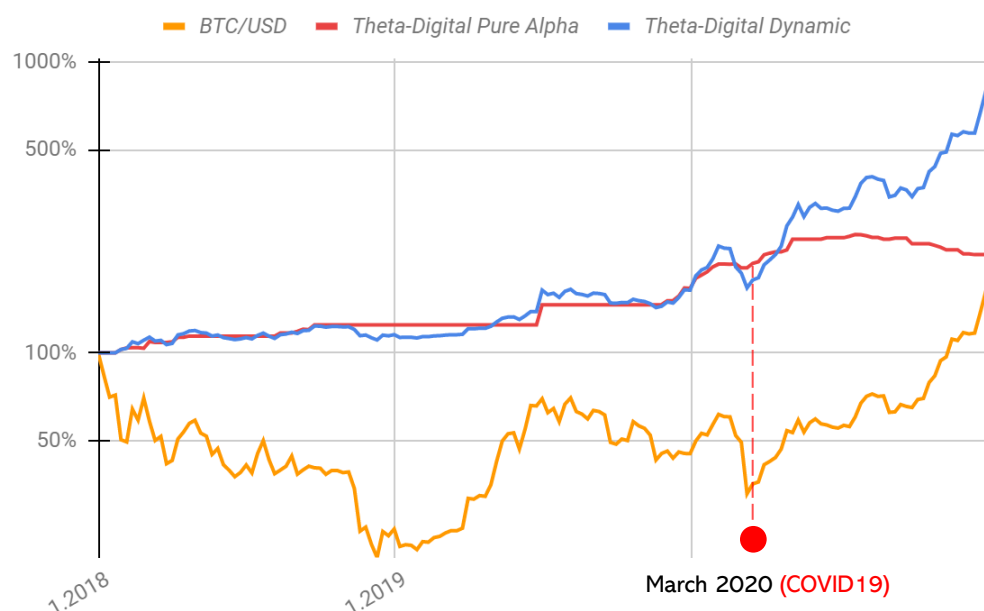

Our private fund is launching this year to offer actively managed exposure to Bitcoin (BTC), the only digital asset with a 10-year history. We not only protect new investors from strong market volatility but also offer experienced BTC-holders a stream of returns which does not rely on a favorable market environment.

The fund is managed by a team with strong expertise in the emerging field of digital assets, as well as systematic investment management, and cybersecurity. This investment vehicle also aims to minimize the risk of personally holding Bitcoin while maximizing the potential return.

KEY FEATUERS

DENOMINATION	BTC
MIN. TICKET	100 BTC
FUND ADMIN	CREATRUST
FUND DOMICILE	LUXEMBOURG
TOTAL AUM CAPACITY	EUR 20mm
HURDLE RATE	10% pa.
MAX. DRAWDOWN	5%

3-Year Track Record of our Model Portfolio

Before markets crashed heavily, we reduced our exposure and started buying the recovery which resulted in months of strong returns

Progressive Fee Structure

Our fee structure is designed to combine the benefits of both low-cost ETF investing and an actively managed hedge fund. During times where the fund simply holds BTC we only charge the fixed 0.75% management fee that is typical for low-cost ETFs.

On the other hand, if we are able to grow the amount of BTC through trading we charge a performance fee on the increase in the number of BTCs (Not on the increase of the BTC Price!). Using a progressive fee structure allows us to lower our fee significantly below the market standard (typically 30% for crypto funds). Our target return of 30% pa. would be met with a performance fee only as low as 13% while returns under 10% come entirely without a performance fee.

Performance fee vs. annual returns:

GROSS RETURN	NET RETURN	FEE RATE
5%	5%	0%
10% (hurdle)	10%	0%
15%	14%	7%
20%	18%	10%
25%	22%	12%
30% (target)	26%	13%
35%	28%	19%
40%	30%	25%

FEES

PERFORMANCE FEE	13% (on 30% p.a. ROI)
MANAGEMENT FEE	0.75% p.a.

Manager Bio

André Arakelyan – The investment manager is an expert in quantitative analysis, predictive modeling, and systematic trading based out of Luxembourg. After studying general management at a top tier German private business school, Mr. Arakelyan worked in CIO management consulting for large corporations listed in Germany (DAX), consulted ultra-high-net-worth individuals on digital assets, and finally worked as a trader for a Swiss multi-family-office with \$3 billion in assets under management where he was responsible for introducing and managing the emerging asset class of Digital Assets.
